PARTNERING PLATFORM

This partnering tool helps you to find cooperation possibilities within the ERA SusCrop calls. It can be used in the following ways:

- Post a Partner Offer/Request

Please post an entry in the partnering tool, if you are looking for collaboration opportunities in project consortia and would like to offer your expertise. You are also welcome to make a post, if you already have a project idea and are looking for further partners that would like to join you/your consortium. Next to providing your contact details, you should give a brief description of your organization. It is important that you provide some key words describing your field of research/innovation and that you specify your interest and the experience, expertise and know-how you/your organization has to offer in relation to one of the listed call (sub)topics of ERA SusCrop.

- Search List of Partner Offers/Requests posted by others

The database can be searched by call topics, keywords and all the other information provided by its users.

Please note:

There will be a plausibility check by the ERA SusCrop Joint Call Secretariat for each of your entries. If the information given passes this plausibility check, which sometimes can take a few days, your request(s) will be published on the page "List of Partner Offers/Requests". Following the publication all information provided by you will be publicly available.
