

Chaire d'excellence en biologie/santé – Levée 1

Avril 2024

Liste des 14 lauréats

Acronyme & titre du projet	Responsable du projet	Etablissement coordinateur
ChromaBac <i>Bacteria driven chromatin modifications in health and disease</i>	Mme Mélanie Hamon	Institut Pasteur
COMET <i>Solving complex ecosystems with contact metagenomics</i>	M. Romain Koszul	Institut Pasteur
DECOBRAIN <i>Decoding generalization in brain networks</i>	M. Cyril Herry	INSERM
DEVRET <i>Development of the human retina</i>	M. Alain Chedotal	Sorbonne Université
ENDLOOP <i>TELS1 dependent t-loops: mechanisms and functions</i>	M. Jérôme Dejardin	INSERM
ENDOFLAMMASOME <i>NLRP3 activation at endosomes: From basic mechanisms to disease</i>	M. Romeo Ricci	CERBM
EPIGEMI <i>Exploring the interplay of genetic, epigenetic, and environmental factors underlying dysregulated metabolism and inflammation</i>	M. Lluís Quintana-Murci	Institut Pasteur
MAMM <i>Maternal immunity control of early life</i>	Mme Yasmine Belkaid	Institut Pasteur
MATCH <i>Mapping microglia – tumor crosstalk to cure pediatric brain cancer</i>	M. Florent Ginhoux	Institut Gustave Roussy
NICHE <i>Stroma-macrophage two cell circuits</i>	M. Marc Bajenoff	CNRS
PLUMAGE <i>Embryonic control of trends and variation in avian colour patterns</i>	Mme Marie Manceau	CNRS

ScalingRules <i>Revealing the scaling up rules of polyploidy in development and disease</i>	Mme Renata Basto	CNRS
SENSATION <i>Reconstitution of polarized and responsive architectures in vitro</i>	M. Manuel Thery	ESPCI Paris PSL
synMODORG <i>Human-specific modifiers and activity-dependent organizers of synaptic development and plasticity</i>	Mme Cécile Charrier	INSERM
