Add more Partner-Boxes if required

8. Objective (Maximum 1000 words, not including concise and short reference list)

The applicant is to state the general nature, context and specific purpose of the research, with a summary at the beginning and with references, where necessary, to existing academic literature. The proposal should conform to program aims and designated research fields. Details should be articulated clearly, particularly with regard to the following points:

- Scientific quality and innovativeness of the joint research plan
- Sound project management, methodological approach, feasibility and appropriateness of the joint research plan
- Added value to be expected from the research collaboration
- Balanced cooperation
- Competence and expertise of teams and complementarities of consortium (interdisciplinary / all necessary expertises)
- Appropriateness of resources and funding requested
- Expected impacts: e.g. scientific, technological, economic, societal
- Opportunities for early career researchers

9. Provisional Financial Summary		
Principal Investigator	Estimated Costs (in € for entire project duration)	Estimated Funding requested (in € for entire project duration)
